Part 4 «Writing»

I'd like to tell you about internet tourism industry in our city. This industry has many positive changes, for example: we can watch what a lot of interesting places in our house in the computer and we can buy a lot of things for tourism. But it has negative changes: now people don't like doing in street because they can playing game in computer, and for these people tourism not interesting.

I think in our country tourism will be very popular acting because in Russia people like different interesting acting because is our tradishang-travelling with our family in our big country, especially in its most popular parts.

In conclusion I should say, as for me, I very like tourism and my friends Olesay and Egor Hlibovs very like tourism too. And we are all know, that Russia is one of the best countries for tourism in our planet. I think tourism is not acting sport, I think tourism is a life style for a lot of people. And we are all happy, because for people very like tourism too.
